code: tic tac toe

TRANSMISSION:  
The question isn't which ONE color combo but by which  
system to include them all.  
Several combinations to be printed and cut in a particular  
configuration. These smaller triangles are then pinned to  
the wall to create ENDLESS patterns and variations.

translation: She understands the system

TRANSMISSION:  
"It was only a rag, a long raveled fragment of cloth. But it  
was a well-woven fragment, with a pattern, of clear scarlet  
that the water had not faded. No savage tribe that we had  
heard of made such fabrics. The guide  
stood serenely on the bank, well pleased with our  
excitement."

"Our new costume will match the new quality of life  
characterized by industry and awareness of its power."
